Subject: Revised test plan for vinyl toluene

February 24, 2003

Attn: Chemical Right-to-Know Program

RE: HPV Chemical Challenge Program

On behalf of Deltech Corporation (Sponsor ID \_\_\_\_\_), I am pleased to resubmit the revised test plan for vinyl toluene (mixed isomers; assume meta- and para-isomers in an approximate 60/40% ratio) (CAS No.: 25013-15-4). The robust summaries for vinyl toluene are also attached. I have addressed the EPA comments dated November 22, 2002.

Please contact me at baer@ulm.edu or 318-342-1698 if you have any questions.
